

STIRRED BY KUHN
Warmly Applaud Inspiring
Talk by General on Sub-
ject of "Spirit"

"DEDICATED TO SERVICE"

Lately Made Officers Impressed
With Responsibility of Exam-
ple Over Future Soldiers

By a Staff Correspondent
CAMP MEADE, ADMIRAL, Md., Sept. 5.—In his effort to put a genuine fighting spirit in the Seventy-ninth Army Division, which will be largely made up of Philadelphians, Major General Douglas E. Kuhn, commander of the division, today broke his long rule against speech-making and in a half hour talk to the young officers, outlined his plan.

Amid the constant roar of dynamite that sounded like a bombardment on the westward front and the clatter of several thousand hammers, the "big chief" took the newly commissioned officers into his confidence and in a heart-to-heart talk told them the task of developing an efficient army out of the 40,000 drafted men had been delegated to them.

"You must dedicate yourselves to the services of your country," began the general. "I am confident that you will make good, but to make good you must be ever on the alert and devote every minute of your time to the development of the men."

After discussing the selective draft act and extolling the men who have been drafted, General Kuhn, exhibiting much feeling, warned the youthful officers that they must practice the doctrine of "square deal" as faithfully as they preach it.

FIGHTING FOR DEMOCRACY
"It is a democratic army and fighting for democracy," he added, "and all men who come here must be placed on an equal plane. The farmer boy must be given the same status as the lawyer who has put aside his profession to fight under the Fort Sumner flag. You must treat every man with the greatest consideration, for your conduct toward them will have an important bearing on their success as soldiers."

General Kuhn described the difficulties that the officers will encounter when they apply the rigid rules of army discipline, but if they follow his instructions it will be a happy career.

General Kuhn addressed the officers from the steps of his headquarters, a small building that is shaded by a clump of pines. None of the officers who won their commissions after three months of training at Fort Niagara and other army schools had an inkling of what was scheduled when they were ordered from their barracks this morning.

Forming into companies the officers marched over the dusty roads to headquarters. In the first group there were nearly 500, but not until General Kuhn started to speak did any of them know the real purpose of his visit.

OFFICERS APPLAUD
After General Kuhn had finished, the dapper-looking officers in olive drab uniforms forgot their dignity and applauded their commander.

The morning's talk was the first of many that will be made to the officers by General Kuhn and other ranking officers at the camp in connection with the general's plan of developing a happy army division.

For weeks he has been busy with this plan and has made it known to his staff officers. Today he decided to impart it to every man in camp, with the view of impressing upon the commissioned men the importance of developing what he considers the most important element in the life of a soldier—namely, spirit.

Following the talk, the officers took a five-mile hike around the camp for the purpose of familiarizing themselves with the chain of buildings.

Baltimore Honors Drafted Men

BALTIMORE, Sept. 5.—The entire community turned out here this afternoon to bid farewell and wish goodspeed to the city's 400 citizens who have been selected for the National Army. A big banner—the biggest in the history of the city—was the chief event of the demonstration. Thousands of regular army soldiers, drafted men and members of civic bodies were in line. All participating, including Governor Harrington and Mayor Preston, who headed the procession, were on foot.

ALLENTOWN WELCOMES
U. S. MARINE BOOSTERS

Motortruck Tourists Arouse Enthusiasm Among Big Silk Mill Workers

ALLENTOWN, Pa., Sept. 5.—The thousand Allentown touring party to create interest and enthusiasm in the United States Marine Corps arrived in Allentown today. They left Philadelphia yesterday and spent last night in Easton, coming to Allentown by way of Bethlehem.

The tour is made on a comfortable truck, gorgeously adorned with Marine Corps banners and pictures showing the gallant exploits of the "Soldiers of the Sea."

In the party are Sergeants Samuel Katcher, Sergeant George Lloyd and Walter Crall, staff photographer of the EVENING LEADER.

Arrived in Allentown, they made straight for Mayor Reichenbach, who is a great friend of Crall, and in three shakes he had a photograph of the Mayor welcoming the sturdy representatives of the marines.

Just before the tour left for the establishment in the United States, filed out for lunch, there was a short meeting, at which Sergeants Katcher and Lloyd spoke briefly of the exploits of the marines, and Crall took a picture of the crowd.

The pretty girls of the Adelade cheered the marines, and a number of the men expressed an ambition to join.

SAN GABRIELE FALLS TO THE ITALIANS

Rome has announced officially that the Italian troops of General Capello's Second Army have taken the San Gabriele, one of the two heights east of Gorizia blocking the entrance to the Vipacco Valley and the direct road to Laibach. The above map shows the position of the two heights, one of which is now in the hands of the Italians.

CITY TO SELL BONDS
'OVER THE COUNTER'

Issue of \$7,275,700 Will Be for Improvements Other Than Transit and Port

Over the counter, the city, on September 17, will offer for sale \$7,275,700 of municipal bonds, the money realized to be used to pay for permanent public improvements other than port and transit work.

The sale of bonds has been decided upon after a number of conferences between Mayor Smith, Controller Walton and City Solicitor Connelly at which a study of financial conditions has been made.

The bonds will be from loans authorized by Councils May 6, 1915, and June 29, 1916. Not since early in the Blankenburg Administration have city loans been offered for popular subscription at par, but peculiar financial conditions existing today make it necessary to repeat the long-discontinued custom.

The bonds will be issued in multiples of \$100 and will bear 4 per cent interest for a period of thirty years. The bond sale held during the present administration have all resulted in handsome premiums being paid by banking concerns and in every instance the letting has been oversubscribed at least three times.

In offering small bonds to individuals at par the city financiers hope to have the whole amount quickly subscribed from sources that were not drawn from the previous lettings, when the banking houses took over the whole offerings for investment and sale. The bonds of \$100 and its multiples will be issued in registered form and in the sum of \$1000 in coupon form, free of taxes.

Subscriptions will be received at the City treasury in City Hall starting Monday, September 10, and the books will be kept open until such a time as the entire amount is subscribed.

HOOVER CONTROLS SUGAR MARKET; PRICE MAY DROP

Imports to Be Pooled, According to Voluntary Agreement of Refiners

WASHINGTON, Sept. 5.—Sugar imports will be pooled and control of the market will be in the hands of the Hoover sugar committee, according to a voluntary agreement reached by representatives of the country's refiners here today. Allied purchases will be made through the committee.

The food administration extended hope that this arrangement will mean lower sugar prices to housewives. The refiners decided to await final action on the war revenue bill by Congress before setting a sugar price to the consumer.

WANTS OLD POLLING PLACE

Taxpayer Asks Injunction Against Proposed Change

Application for an injunction restraining the County Commissioners from removing the polling place at the northeast corner of Third and Catharine streets to the northwest corner was made this afternoon in Court No. 1 by Francis L. Maguire, representing George W. Minter, a taxpayer of 23 Catharine street.

It was pointed out that, although eighteen electors signed the request for the change of the polling place, eleven of the signers subsequently asked that their names be withdrawn, as they had signed under a misapprehension.

Mr. Maguire also contended that changing the place at this late date would cause unnecessary trouble and confusion to voters.

FIRST NEW ARMY
MAN AT CAMP DIX

Parkertown Fisherman Gets Honor of Being Initial Arrival of 78th Division

MEN POUR IN RAPIDLY

CAMP DIX, Wrightstown, N. J., Sept. 5.—To Clarence Brown, a fisherman, of Parkertown, Ocean County, N. J., goes the honor of being the first man of the new army to enter the Seventy-eighth Division, which will train at Camp Dix. He was Parkertown's lone representative and arrived in camp at 9 o'clock. He was followed by three Smiths, Edgar E. Smith and Clarence Smith, though having the same name, are not related.

About fifty embryo soldiers dribbled into camp this morning in groups of three or four from nearby towns and villages. The largest delegation came from Cape May and included eight men. Between four and five hundred men are expected in late this afternoon.

The men are being met at the station by the officers of the regiments to which they have been assigned and are taken at once to the hospital for physical examination to see if they have contracted any contagious diseases. They are then marched to their temporary barracks and assigned to their bunking places. Bedding equipment will be sent to them as fast as the men arrive.

Although they will be in temporary quarters for a while, the men will not have to endure any hardships, as the camp is well able to feed, house and clothe the men as they come in. The new arrivals this morning were given lunch of cold ham, sliced potatoes, bread, butter and apple sauce at one of the cafeterias.

In characteristic army style no time will be lost in getting down to work. Training will begin on Thursday morning and the regulation eight-hour law, which is to be the standard working day, will go right into effect Wednesday and Saturday afternoons will be holidays except for the back-up men, who will be given a chance to catch up with their comrades.

During the last few days the officers have been receiving instruction in the administrative and executive ends of company work. This is mostly paper work and forms a large part of the actual work company officers are called upon to perform, for they are required to give daily reports as to the condition of the men and material in their charge.

While Camp Dix will be well able to handle this first quota of men, it is still at least six weeks distant from being a finished camp, and the rookies will find life there no bed of roses. It will call forth the soldier's instincts in each man right from the very start. Yet no one in Camp Dix seems to mind the inconveniences much; in fact it is one of the very liveliest and most cheerful places that it is possible to find in a month's travel.

WILMINGTON TROOPS
OFF FOR CAMP DIX

WILMINGTON, Del., Sept. 5.—Headed by Mayor Lawson and by members of all four exemption boards, Wilmington's first quota to the new National Army, thirty-one sturdy young men, left here today for Camp Dix at Wrightstown. They also were given a military escort and were headed by the First Regiment Band.

At the station the men were met by relatives and friends, who bade them farewell. The Red Cross supplied them with tobacco and other luxuries.

Among the departing men was William McLaughlin, a veteran of the Boer war, who until today never mentioned his previous army service. He has two brothers serving in the British army. Although he has a wife depending on him, he refused to claim exemption, saying he would send her his pay.

DELAWARE'S FIRST QUOTA
PASSES THROUGH CITY

Delaware's first 3 per cent of the first draft passed through Philadelphia today and was cheered enthusiastically by the crowds that saw the troops. They arrived at Broad Street Station at 11 o'clock and the entire quota of sixty-one made assault on nearby lunch-rooms. One man who saw them handed them several \$10 bills to buy cigars. He was Thomas F. Monaghan, of Fall River, Mass.

They formed in line and marched down Market street to the ferries, whence they were taken to the boats. They were taken to the boats by a train for Wrightstown. Twenty-nine of the drafted men were from Wilmington.

11 KILLED, 62 HURT
IN LONDON AIR RAID

Twenty German Planes Drop Forty Bombs on English Metropolis

117 KILLED IN THREE DAYS

LONDON, Sept. 5.—The third German air raid on England in the same number of days caused the death of eleven persons and the injuring of sixty-two in the London district, Lord French, commander of home defense forces, announced today. He said one of last night's raiders was brought down over Sheerness, presumably as it fled toward Germany.

The announcement brings the total number of deaths by German raiders since Sunday up to 119 killed and 154 injured. The raid over London last night was by a fleet of about twenty enemy machines, Lord French stated. They flew in small groups and dropped about forty bombs.

Last night's attack was the first moonlight air raid over the London district. One bomb fell just outside a hospital, another smashed through a theatre, and still another hit a retail store in which a number of girls were sleeping. Notwithstanding the moonlight, little could be seen of the raiders, although their engines could be heard overhead.

That most were invisible was perhaps due to a slight haze which was insufficient to obscure the moon.

The raiders were constantly shelled by anti-aircraft guns and several British machines took the air to attack the invaders. There were two separate attacks over the London district, the second occurring about 1 o'clock in the morning.

One machine was located by searchlights at an estimated height of 9000 feet. It was severely crippled. Observers declare it was hit. At the same time British airplanes were seen maneuvering for attack on the raiders.

The streets were filled with curious crowds until the early hours inspecting the damage. More bombs appear to have fallen in the streets than hit buildings.

In the falling zones of Belgium, France and the Austro-Italian, the air raids are now nightly occurrences, while sky battles daily mark the progress of land operations.

Almost every night huge armadas of British airplanes are out from Dunstable, dozens of explosive upon military bases behind the German lines in west Belgium. The chief points attacked are the air and aviation camps around Bruges, the submarine base at Zeebrugge and the railway junctions and supply depots at Roubaix and Ghent.

French airplanes are concentrating their attentions against German bases at Frezenoy-le-Grand, Comblain, Cambrai, Frasnes, Colmar and Habsheim. The great German fortress at Metz was attacked on the latest French raid.

German airplanes along the western front devote the most of their time to the British air bases at Calais and Dunkirk, which are attacked at every opportunity, and on Monday night a big fleet of German airplanes dropped bombs on these ports.

The Italians are using hundreds of airplanes against the Austro-Hungarians. Pola has been attacked, and it is reported that much damage was done to the naval station there on Monday night. Fires were observed and explosions took place on ships in the harbor.

It is estimated that the British, French, Italians, Germans and Austro-Hungarians now have 2000 airplanes in action daily.

TEMPLARS FORGO FIELD
DAY FOR PATRIOTISM

Abandon Annual Event and Will Give Ambulance to Uncle Sam

The Knights Templars of Pennsylvania, Division No. 1, comprising commanderies of Philadelphia, Chester, West Chester and Coatesville, nearly 6500 men—will forgo their annual field day this year to give twelve or more regulation motor ambulances to President Wilson for use with the United States forces in France.

W. Freshland Kendrick, division commander, today called a meeting of representatives of all commanderies for Lu Lu Temple Friday night, to complete plans for purchasing the cars and to give the order. The call followed receipt of a letter from the President accepting the gift.

The field day committee of the division will transfer to the ambulances, fund all the money on hand which was to have been spent for bands, a grandstand, tents and food for the big field day.

Patrons desiring to open accounts may have bills rendered December 1st upon request.
